PROFILE

I am Nika and as a self-taught front-ended developer I gained enough skills through years from my personal projects and online courses that I'm ready to presume my first job at this profession.

Furthermore, I am adept at handling multiple tasks on a daily basis competently and at working well under pressure.

My biggest strength is communication; building strong relationships with people in order to deliver the best results.

EXPERIENCE

NUTRITION CONSULTANT

Osnovna šola, Šenčur
2016-2018

My first job was about creating menus for the kids. This job mostly taught me how to be patience and how to keep going even when the results are wrong.

WEBSITE DESIGNER

Zavod za pospeševanje turizma, Bohinj
2018-2021

This was my first actual job that I adored because I could get my creative site out of me and it motivated me to start designing my own personal page site. This project made me to start programming it myself and the soon as I started I knew I wanted that to be my profession.

PERSONAL ASSISTANT

Zavod generacije, Medvode
2021- DANES

Covid-19 motivated me to put my energy in people who really needs help. Work with immobile people made me see life in a different way. It taught me how to be patience and unselfish. Two properties that are I think indispensable in today's work environment.
